

PRIMARY SCENARIO EVIDENCE

Evidence files comprising the simple, single-stage version of the scenario. Including:

1. **Memory Images**
 - a. A memory capture of an Ubuntu workstation taken on day one of the scenario.
 - b. A memory capture of the same Ubuntu workstation taken on day two of the scenario.
2. **Network Captures**
 - a. A packet capture from the internal network taken on day one of the scenario
 - b. A packet capture from the internal network taken on day two of the scenario

EXTENDED SCENARIO EVIDENCE

Evidence files comprising the more complex, five-stage version of the scenario. Including *all evidence from the primary scenario* and:

1. **Disk Images**
 - a. Three disk images taken from separate Ubuntu workstations.
2. **Log Files**
 - a. Logs retrieved from the internal DNS server
 - b. Aggregated logs retrieved from the central log server.
 - c. Logs and cache files retrieved from the proxy server.
 - d. Logs retrieved from the third-party DNS servers.
3. **Additional Memory Files**
 - a. Memory captures from two other Ubuntu workstations
 - b. A swap file retrieved from an Ubuntu workstation.

EDUCATIONAL RESOURCES

Documents to help instructors and students understand and investigate the dataset. Including:

1. **Investigative Question Set**
 - a. Simple scenario listing and challenges
 - b. A set of focus questions
 - c. Extended scenario listing and challenges
2. **Instructor Solution**
 - a. Memory analysis for the simple scenario challenges
 - b. Network analysis for the simple scenario challenges
 - c. Worked answers for the focus question set
 - d. Extra analysis for the extended scenario
 - e. Timelines derived from evidence.

SUPPORT

Documents to help instructors recreate the scenario or use it as part of an assessment in their course(s). Including:

1. **Environment Support**
 - a. Instructions on how to configure the virtual environment.
 - b. Instructions on how to simulate the scenario for each persona over a period of two days
2. **Educational Support**
 - a. Analysis of WelTec courses (2020) and their learning outcomes to determine how suitable the scenario is for use as an assessment in each.
 - b. A marking schedule (criteria, rubric, and requirements) for instructors using the scenario as an assessment.
